- Smooth and CedarGrain™ textures
- Pre-finished with Polane® polyurethane coating
- Built-in flashing
- Built-in clapboard/weatherboard retainer
- Supports picture frame and/or cross header specifications
- Limited Lifetime Warranty on the material and finish

Door casing using the NuCedar Header Trim capped with available pre-finished crown moulding

Part# Header Trim	Dimension		Texture
HT001	5/4" x 4" - 20'	1" x 4" - 20'	Smooth
HT002	5/4" x 4" - 20'	1" x 4" - 20'	CedarGrain™
HT003	5/4" x 6" - 20'	1" x 5.5" - 20'	Smooth
HT004	5/4" x 6" - 20'	1" x 5.5" - 20'	CedarGrain™

Fixture Wall Mount

Utilize NuCedar Pre-Finished Trim to create Fixture Wall Mounts for lights, receptacles, faucets and more by routing the sides of a piece of NuCedar 5/4" trimboard. Finish the look by installing the NuCedar Snap-In Insert to achieve the appearance of butted cedar.

Mount Features:

Profile of an electrical receptacle mount milled from NuCedar trimboard.

- 5/4" trim stock (Available widths: 4", 6", 8", 10", 12")
- Smooth and CedarGrain™ textures
- Routed sides create a built-in clapboard/weatherboard retainer
- Use with or without the patent-pending NuCedar Snap-In Insert to achieve the butted look of cedar
- Pre-finished with Polane® polyurethane coating
- Limited Lifetime Warranty on the material and finish

Part# Standard Trim	Dimension		Texture
TD011	5/4" x 4" - 20'	1" x 4" - 20'	Smooth
TD013	5/4" x 6" - 20'	1" x 5.5" - 20'	Smooth

The Look That Lasts.

NuCedar Mills' siding and trim accurately replicate the past's aesthetics, while delivering the future's durability. Milled from cellular PVC, the same material that has become highly popular in exterior trim, NuCedar Classic Clapboard®, Classic Beaded Weatherboard™, and trim are the premier cladding products for the luxury home.

A World of Colors.

Having your home the color you want is easier than ever. NuCedar siding and trim products are pre-finished with Polane® polyurethane from Sherwin-Williams™. This coating fuses to the cellular PVC substrate and offers solar-reflective qualities, which may reduce cooling costs in summer months. This process provides the most durable finish on the market, ensuring your siding will look great for years to come.

The Better Warranty.

NuCedar's Limited Lifetime Warranty is one of the best in the business. The Material Warranty protects against rotting, delamination and damage caused by hail or insects, while the Finish Warranty covers against chipping, peeling or cracking. For the ultimate peace of mind, both the Material and the Finish Warranties last for as long as you own your home and include labor replacement for the first full year of ownership.*
